WHERE IT GOES
This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Blank 210 x 195 mm from 2 mm sheet. Fold lines 20 and 35 mm in from each 195 mm end: 140 mm plate, 15 mm legs, 20 mm feet. Fold the legs 90 deg, then the feet 90 deg outward, so the plate stands 15 mm off the lid floor.

Feet: two 5.5 mm holes each, 25 mm in from the ends, for M5 screws through the lid with bonded sealing washers.

Plate: holes to suit the monitor's rear M4 holes; a 25 mm hole for its leads.

Check: monitor and bracket stand 45 mm deep; the lid closes.
