WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Cut 30 mm off 40 x 40 x 3 mm angle; trim the upright leg to 95 mm long from a longer piece, or bolt a 30 x 95 mm strip to the angle with two M4 screws.

Base leg: two 4.5 mm holes for M4 to the plate.

Upright: holes to match the flow meter's panel screws.

The meter must stand upright for its float to read.

Check: meter vertical to within 2 deg with a level.
